# ABOUT US

Cryptocurrencies are digital tokens. They are a type of digital currency that allows people to make payments directly to each other through an online system. Cryptocurrencies have no legislated or intrinsic value; they are simply worth what people are willing to pay for them in the market. Cryptocurrency, or crypto, is a digital payment platform that eliminates the need to carry physical money. It exists only in digital form, and although people mainly use it for online transactions, you can make some physical purchases

# What is cryptocurrency

Some cryptocurrencies offer their owners the opportunity to earn passive income through a process called staking. Crypto staking involves using your cryptocurrencies to help verify transactions on a blockchain protocol. Though staking has its risks, it can allow you to grow your crypto holdings without buying more. Cryptocurrency, or crypto, is virtual or digital assets purchased with real money (\$, £) traded on blockchain technology. It does not have all the values of real or fiat currencies. Cryptocurrencies, like Bitcoin and Ethereum, are different from stocks and real money.

# What is crypto Trading ?

Well, to put it most simply, crypto trading is the trade or sale and purchase of crypto assets. However, crypto trading happens digitally in a decentralised manner using blockchain technology. Investors prefer crypto trading because of several reasons. First, the crypto assets are not tangible.

When you buy cryptocurrencies via an exchange, you purchase the coins themselves. You'll need to create an exchange account,
